Maria Feodorovna to his son Michael

Fredensborg, 19th August 1900

My dear darling Mischa !

I thank you with all my heart for your charming letter, so interesting, which delighted me very much. I hope that you are happy in Belobej and that you are having a successful hunting. Nobody writes anything about this hunting, so that I know nothing. My thoughts are always there with you all and I am able ^{to} visualize how is your life there. I miss you very much my darling Mishkin and I will be happy to see you again and am waiting for you impatiently. Here, everything is as usual but the first days my mood was awfully sad and dull. My rooms seemed so empty that I did not know where to go. Thank Heaven, dear Arara is feeling well, he walks a lot and even mounts. He now lives in the rooms of dear Agata and we have coffee with him each morning.

Everybody sends greetings to you and is happy to see you soon again. My tenderest kisses to you my dear Misha. God be with you ! Good-bye.

With my warmest love.

Your Mummy.

Regards to everybody and also to Semenov.
