Kvidórc, the 31st August 1907

My dear Mishkin,

Your dear letter made me very happy, I was waiting for it since long and I am glad to learn that you are pleased with your stay in Karlsbad. All what Professor Norden found is very comforting, it only seems to me that you must now be very careful after "la cure, not overtire yourself," that's the most important. You see that I was completely right when I told you that you were "anémique", "manque de nourriture saine". So many years, I was telling you that it was of no use you eating so little and so badly. I do hope that you understood it now yourself, it is such a bore and distress to be unhealthy. I really urge you to be careful "et suivre les conseils des médecins". I am very glad that you have seen much of uncle Bertie, who wrote often about it to aunt Alix. At last, we moved to our delicious house and I can't tell you what an enchantment it is. It is something unbelievable. Our rooms are so lovely and everything is so cosy. The view on the sea is just ideal. Lying in bed, I see the sea, this is just what I was always so fond of and always wanted to live so near to it. The garden is just as beautiful and perfectly kept. Aunt Alix and I are living here quite alone, the retinue remained in Amalienborg, as space is scarce. To-day, they had lunch with us and we showed them everything and they were very pleased. The weather, since we arrived to Danemark, is marvellous so that we spend a lot of time outdoors, taking walks and sitting in our garden. I am going about as in a dream, everything is so right and nice. Your room is also very lovely and is waiting for you. Toria is still at Maud's but she will be here within two weeks. We are living so pleasantly and quietly. By day, we use to have guests either for lunch or tea. Until now, we had dinner alone on the closed veranda and in the evening we use to be alone too. To-day, we shall go downtown, I want to pay a visit to Almaz who is here with Doudassov and in the evening we go to the theatre and shall spend the night on the yacht. Unfortunately, the day is horribly foggy and we can't see anything around which is a perfect bore. All former people of dear Apapa are now again with us and it is touching to see how happy they are. You probably heard that "Standard" hit a reef yesterday. It is a horrible pity and I am so sorry for poor Nicky, his only pleasure and entertainment has been spoiled by this disagreeable and unwanted event ! Thank Heaven they all emerged unharmed, but the splendid "Standard" is surely damaged and they plan to take her out within two weeks. At present, she is lying on her side, full of water. I can't understand how they could take that course, we used to take that direction only with "Tsarevna", we never thought of having "Stella Polaris" with us in those narrownesses. It is just horrible !!

I hope that you are having a good time in Italy and that you like it all everywhere. It is so good and sound to be "dans une autre atmosphère et voir quelque chose de tout autre et nouveau. Here, everybody is all right, the weather, thank heaven, is summerlike and we are just enjoying life.

On board "Stella Polaris" the 1st September

Here I am once again, on marvellous Polaris. I slept wonderfully and wish to finish this letter before returning to the shore with aunt Alix. To-day, the weather is quite warm, like in June, 16 - 17 degrees in the shade. After lunch, we have in mind to return on "Tsarevna" of which I am awfully glad, it's been such a long time since I had a journey on her. Viazemski is very happy to be here again and it seems that everybody is happy too.

Well now, that's enough ! Best kisses to you my dear Misha. My thoughts are always with you. Greetings to Baby and Peter too. I hope that they also recovered completely. God bless you all!

With my warmest love !

Your Mummy.
