

**MESSAGE FROM  
FIELD-MARSHAL THE VISCOUNT MONTGOMERY OF ALAMEIN  
TO  
ARMY CADETS IN THE JUNIOR TRAINING CORPS AND  
ARMY CADET FORCE**

The National Cadet Movement is entering into a new phase. The framework has been firmly built up; now we are about to embark upon a considerable expansion. To mark this occasion I am sending this personal message to our Army Cadets in the Junior Training Corps and Army Cadet Corps.

The Cadet Movement has already earned for itself an accepted place in the life of the country. This is good. It must now consolidate its position. The Army—Regular and Territorial—looks to the Cadet Movement for its future leaders. We want men of character; men with highly developed qualities of:

integrity,  
courage, moral and physical,  
loyalty, and  
enthusiasm.

These are the qualities which are developed in the Cadet Movement. They are as vital to the Nation as to the Army.

I want to say a word about Certificate A. Any Cadet who joins the Army with Certificate A is a potential leader; he will be carefully watched and will be given every opportunity to gain rapid promotion. See to it that you all go all out to get your Certificate A.

I would like to express my appreciation to all those Officers and Warrant Officers who have so greatly contributed to the success of the Cadet Movement. You could not do any finer work for our country than in the service of Youth.

To you all I say: you may be justly proud of the Cadet Movement.

Continue the good work.

Good luck to you all.

Montgomery of Alamein  
F.M.

C. I. G. S.
