SURRENDER OFFER HERALDS F TOPPLING REICH

BY OUR DIPLOMATIC CORRESPONDENT

No. 3313

THE Third Reich, planned by Hitler to endure for a thousand years, is toppling now on the abyss of final destruction. It is going to its doom in a welter of rumoured revolution, of total surrender feelers and of reported assassination of the men who led it through years of battle to its end.

IS hand shook as he wrote his report; his lips quivered as he recalled in his mind what he had seen, even though it was more than forty-eight hours ago that he had returned from a visit to Buchenwald, the Nazi concentration camp, where tens of thousands of Nazi victims have perished.

Words did not seem capable of conveying the scene of rotten bodies sprawling on the barren ground; of living dead walking in a trance, women wandering around, lost, within a small compound, men murmuring unintelligible sounds.

"And there are people who-still cannot believe," he said, "when I tell them about the horror camps from which I have just come away. They can't believe; I can't forget!"

It was a responsible person whose word would not be doubted by his flercest enemies. And the story he told of Buchenwald surpassed

told of Buchenwald surpassed in details even what has already been said.

"Propaganda?" he asked.

"Surely there is no need to make 'propaganda,' to spread atrocity stories when you've already won the war! Anybody who has watched our men getting raving mad at what they have seen would understand..."

But there are things in this grim experience that are truly almost impossible to understand. Take the case of Alfred W—, a prisoner at Buchenwald, such as few civilised people ever thought they would hear about.

Among the living corpses in the compound, Alfred, a German, looked comparatively well fed.

Army in Burma)

RIVATE YAMA MOTO quats miserably on his unches in the hot sunshine behind the wire net of the prisoner of war cage. His bony elbows rest on his knees, and his shayen head is cupped in thin, parchment-yellow hands.

Moto has remained in the same tranced attitude, as motion-less, unblusting and evil-tooking

less, unblinking and evil-looking as a poised cobra, all the long morning. His bowl of rice and meat is full, and although the air has a bakery oven heat up in the stifling hundreds his water chuggle is untouched.

Private Moto is beyond caring about food and drink. All he wants to do is die. He is wishing that he had not been so impetuous in the last few mad minutes before he was captured; that he had saved just one grenade so that he could have held it pressed tight against his belly until it blew him into the company of his celestial ancestors.

Disgraced

This miserable, misguided little Japanese soldier, sitting alone in his wire cage, would be better off,

his wire cage, would be better off, and far happier, dead. As it is he is nothing but a living ghost—an unhappy little yellow man without a country, without a home and without a family. He can never return to old Japan, never again see the pink glory of the cherry, blossom in foaming bloom; for when the sous of the Emperor commit the indiscretion of being captured alive they are written off as dead. He is a fantastic, unpre-dictable blend of brute viciousness and sugary sentimentality, childish supersti-tion and crazy fanaticism. Yet he will spend half his pay on a set of disgusting pictures, or an hour with one of the "comfort girls" who follow the yellow army. He is a sadistic little torturer, too, and he thinks nothing of leaving his best friend behind on the battlefield without water or morphine to dull the agony of his wounds.

The dead are cremated on petrol soaked funeral pyres, while the rest of the company stand around in their smartest uniforms listening to the commander addressing the dead soldier. He talks to the body as if it was still alive, praising his heroism and saying what a wonderful thing he has done in getting himself killed.

but there is reason for bewilderment, too. The acts of a madman are unaccountable, but it is astonishing that Hitler's special gang of lunatics can still dominate what is left of sanity in the Third Reich

The sheep-like obedience of the average German to constituted authority is beyond the understanding of free men. But the Allies will have to reckon with it and they may be able to turn it

HERE is not a shred of truth in the oft-made statement that the Nazis can, or will, hold on in a "Southern Redoubt." If anything like a total of twenty complete divisions gains the rendezvous I shall be surprised. Whatever the number, means exist to snuff them out successfully.

On the other hand, ridicule of the Werewolves is carried too far. No doubt need be entertained that more and more employment of devilry and treachery will take place.

I shall continue to expect the exposure of a completely organised under-cover movement capable of causing trouble.

For this purpose leading Nazis are "burning to death in heavily escorted cars"—or what you will. The truth about them is soon to have the liveliest comman industrialists.

mentary in Russian profests to certain neutral countries.

One such protest may not stop at a mere exchange of diplomatic notes.

This much is certain, that (having taken Berlin first, as I said they would), they will find the genuine birds flown. A mystery which grows to a dangerous legend is in manufacture.

Side by side with it runs a very unsavoury story of the doings in recent weeks of German industrialists.

THERE are two major considerations in the present confused mess. One is the onset of epidemic conditions, not only in the Reich, but in still occupied regions. Some serious news is shortly coming, showing a graver situation than has been anticipated, not without suspicious circumstances.

Some people thought it amus-

Some people thought it amusing when I warned that the Nazis would not stop at pulling the entire European structure down with them.

That unholy ambition continues, unfortunately, and new facts will cause world-wide consternation. I think the possibilities are much under-rated.

The second important point.

The second important point emerges soon from San Francisco. We shall find that terms laid down for Germany reprelation may confirm this.

A SIDE-SHOOT which tends to affect decisions appears in Mediterranean areas. An ambitious bloc idea is having discussion and we shall hear of a drawing together of the Latin countries. Sharp Leftish swings occurring in France, Italy and Spain heighten this movement near mid-year.

It seems to me, therefore, that a Conference adjournment is to be expected while a whole series of new events is sorted out.

Among these it is important that another Pearl Harbour is not in the making in the next few weeks.

Among these it is important to include further crises in France, Spain and Italy, and parallel events in Jugoslavia and Greece which I warned were at hand.

Perhaps the most astonishing incidents in coming weeks concern Japan. Direct peace suggestions are coming, together with a specific offer to Russia.

Harbour is not in the making in the next few weeks.

What I am sure about is an ingenious, and highly dangerous, Japanese influence on Indian and Pacific problems. So far as I can see, the main date-line for fermentation is in spring, 1946.

We, and other Powers, are taking far too comfortable a view of chances presented today which are to be denied next year.

NOTHING, anyway, is more certain than that beneath all decisions made at the Conference is the Axis-designed political undertow, with agents stirring up revolts preparatory to a comeback. ago we suggested that the young Donçaster heavy-weight, who is a strong tip in some quarters to be our next champion, would miss the boat if he didn't hurry, up and throw out a challenge to Freddie Mills.

Freddie Mills.

Well, Bruce lost his chance when Mills went overseas, so, realising that a future champ, can't be kept in the promising stage for ever, Woodcock's camp have evidently been looking around for some fights for him. They have struck oil at the Queensberry Club, London, where Bruce may have Scotland's Ken Shaw opposing him on Wednesday.

I dare say Bert Gliroy could put up a good show against the Don-caster man. The Scot would probably relish the opportunity, for the last time he met Woodcock Gliroy lost the verdict on what appeared to be a short count.

Woodcock's appearance in Town will be watched with considerable interest, especially as this will be his first fight since October, when he defeated Al Delaney.

Stoke And England Differ About Soo

FRANK SOO, Stoke's international wing-half, of Chinese descent, and skipper of the team, is at loggerheads with the club and has asked to be placed on the transfer list.

loggerheads with the club and has asked to be placed on the transfer list.

A most interesting issue is raised of the "What would you do, chums?" type, for, although Soo says there are other things, his chief complaint is that the club will insist upon playing him in the forward line, although the England selectors think he is the best righthalf in the country.

I can visualise a fifty-fifty argument from you fans, for, while Soo is justifiably incensed because there is always the danger of him losing his touch as a great half-back and developing into just an ordinary inside forward, there is also the club's point of view.

If they engage a player as a professional are they entitled to play him where and when they like?

Admirer, though I am, of this steady, popular Stoke star, I must say that I think the scales are rather balanced against him. You see, when he was engaged in 1935 from the Prescot Cables, Ilverpool, club, it was as a forward. Only later, in an emergency, was he converted into a half-back, so he has the Stoke club to thank for that much.

OF THE CLASSICS

TELL-TALE races for the classics were decided last week at A Newmarket. A good many people came away on Wednesday convinced that Sun Stream should win the One Thousand Guineas

In finishing second to Exotic in the Upwell Stakes, Sun Stream proved that at level weights she was likely to reverse the form over an additional furiong in the first classic for filles. At any rate, her trial with High Peak and other stable companions a few days before the Upwell Stakes could not have been right, for she then finished fourth of the four runners.

Bruce Woodcock, England's heavy-weight hope, fights Ken Shaw at Queensberry Club, London, on Wednesday.

OFTEN the measurements of champion boxers are carelessly taken and gross errors creep in. For instance, a huge barrel like Tony Galento (who fought Joe Louis), about 16 st. weight, is down for a 10½ inch forearm. Gigantic Fulton (who fought Jack Dempsey) is credited with a 13½ inch calf. Both these measurements are about right for the average schoolboy.

Knowing this, C. B. Cochran, who put on boxing under luxury conditions, with big purses for the fighters, engaged Tom Inch specially to go down to Southampton and run the tape over Joe Beckett, when he was training for his fight with Carpentier.

OLD-TIME footballers who are not already fixed up will have premit of scope when the war is over. Those who do not get a reanagerial job like Eddle Happood, Nell Dewar. Matt Busby and many others will almost assuredly get positions as concies or scoots.

It hills when county cricketer, who must fire you you with when the game restarts in a big way, in the same happy position?

I think when county cricket is resumed we shall see many of the veterans in action, but for how long? They know as well as I do that the accent will be on youth and that they will only be there, to put it bluntly, as makeshifts until the up-and-coming youngsters are regularly available.

Displaced county men may find the pand-corning youngsters are regularly available.

Generally speaking, the outlook for the veteran county professional is a pretty bleak one. In these six years of war he has missed wages and bonuses totalling many hundreds of pounds and it is reason able to assume that some of the carefully bearked savings will have been spont.

winning sequence on May 9. Whatever happens to him in the Derby, he has in my opinion, an outstanding chance of pulling off the "Guineas."

He has beaten High Peak as a two-year-old, when it was urged in favour of Lady Derby's colt that he got slowly away. It would not have made the slightest difference had High Peak got off on terms.

I TAKE the view, however, that she was probably being asked a tail question, because neither trainer nor jockey expressed any adverse opinion after the gallop. That Sun Stream could have been nearer to Exotic at the finish of the Upwell Stakes than the official two lengths is the opinion of more than one sound judge. I DON'T think High Peak will beat
Dante in the "Guineas." Over
the additional half-mile of the
Derby the merits of Lady Derby's
colt are less problematical, for
High Peak has all the making of a

As a doughty opponent for Dante over the Bunbury mile I shall be keenly appreciative of the claims of Miss Dorothy Paget's Sun Storm, though I am assured by some Newmarket folks that Vicinity is going to make them all gallop.

official two lengths is the opinion of more than one sound judge.

**

SUN STREAM has certainly developed on the right lines. There can be little doubt that she will be Newmarket's best for the "One Thousand" and if she wins that race, her favouritism for the Oaks is assured.

I question whether Happy Grace will stay the Bunbury mile. She was not at all impressive against Exotic and Co. while Blue Smoke does not look quite class enough to cope with filles who finished in front of her last week. One that will make improvement is The Golden Girl, top-priced yearling of her year I certainly do not rate this young lady out of the One Thousand Guineas; she may be even better in June.

COMEHOW or other I fancy Neola Tight horse. Those who oppose Dante because he is trained in the North are putting up the most unreasonable argument ever. I will admit that it is a long time since a Yorkshire stable sent out a classio winner, but the reason has been that no trainer at Middleham, or eisewhere beyond the Trent, has had a horse in his yard of the calibre of Dante. table sent out a classic winner, but the reason has been that no trainer at Middleham, or elsewhere beyond the Trent, has had a horse in his yard of the calibre of Dante.

LAD it been otherwise, southern trainers would not have had it all their own way so far as the classics are concerned, for northern trainers are just as capable as those at any other quarters. But they can't beat all-comers without the right horse.

THIS, however, is all beside the point as to whether the unbeaten Dante will continue his beat all continue his cont

Empire's Easy Win Over France

THE British Empire Services proved too good for the French Services in the Rugby International at Richmond, winning by three goals and four tries to a penalty goal and a try. The Empire forwards laid the foundations for success by getting possession from four of every five scrums, and the skill of Willie Davies and Tanner, the halves, Risman, Bleddyn Williams and Brogden, three-quarters, did the rest.

The Frenchmen gave a plucky display. Rouffla, full-back, and WHAT A Dauger, centre, being specially good. General Delmas, on the wing, had TREAT FOR THE

Neat passing by Junquas and Dauger Neat passing by Junquas and Dauger ended in Baladie being pushed into louch, and shortly after Frat from a penalty narrowly failed to kick a goal. Thus far, though the Empire had won nearly all the scrums there was little between the sides.

Rouffia dealt coolly with all kick-and-loilow-up tactics, but at last, in 24 ninutes, a smart cut-through by Davies (ave Owen a try that Risman failed to convert.

At half-time the Empire led by 8pts. to nil.

In the first minute after half-time Brogden took a pass by Emrys Evans and added a try. The Frenchmen persevered and when they heeled from a serum Rouffa put in a fine burst which would have brought a try had not Dauger knocked on.

Brogden, Risman and Williams were ill well tackled in quick succession, but follis put on another Empire try. Then Risman scored another try before Prateplied with a penalty goal.

Davies made way for a try between he posts by Risman, who also concerted, but Dauger and Delmas led a ally and Massare dropped over for a ry which Prat could not improve.

Twice afterwards Beladie looked like coring, but was pulled up because of firingements.

Racing At York In August?

VORK racecourse has been I derequisitioned by the Govern-ment, and there is a possibility that it may be included in the list of fixtures for the second half of the current flat-racing season. Sufficient progress has already been made to enable a meeting to be held in

August, although the stands and other accommodation would not by that time have been restored to their pre-war

whether the Jockey Club are able to scure fixtures depends entirely upon he various Government departments oncerned.

York is on a main railway line, and therto the Ministry of Transport has been in favour or racecourses so tuated.

The York

ituated. The York racecourse is on the chavesmire, about a mile and a-quarter rom the railway station. It is one of the best appointed courses in the North f England and had three fixtures each ear in peace-time. rear in beace-time.

There are possibilities also of racing it Radear this year. Major Petch Clerk of the Course, stated yeaterday that the accounts will be descreptialitioned early in Max, and that he is hopeful of a meeting there in the second half of the current season, providing that Government sanction can be obtained.

RUGBY SCRAMBLE FOR NEW MEN

SHORTLY I will have some BY DROP KICK Rugby League news that will startle you and convince you that we are again to see the old, exciting scramble for talent at present to be found in the fastnesses of South Wales.

Already club managers and secre Already citin managers and secretaries are busy sounding faient likely to enjoy an early release from the Army, Navy, and Air Force, but, believe me, there is just as much first-class material to be found among non-uniformed players.

be a godsend to that by no means lite side. So this straw in the wind only serves of confirm my opening remark that hings are brewing up to a great transer spate and an exciting bargaining competition between the moneyed clubs in the rich fields of South Wales.

With prospects of several open-air shows this summer, South Wales comes into the boxing limelight. At Porthcawl, on May 19, Mr. C. Beynon has matched inky-skinned Danny Webb, Canada, against Tommy Davies, Nantyglo, in a return contest.

HOW would the boys in the B.L.A. like to see a fight between Ronnie James and Dave Crowley? Well you ask them, but plug your ears first. It's my guess that most of the lads would much

prefer to see this than any Ensa-show.

Biggest Headache John Harding, Queensberry Club chief, the man with the biggest headache is week-end. After his Woodcock-naw fight crashed he tried to get illiams v. Danahar as a top-liner but at. too is off. The last I heard of Mr.

Williams v. Danshar as a top-liner but that too is off. The last I heard of Mr. Harding he was trying to get Johnny Clements on the bill.

However, Crowley will be there with Johnny Price, while Harry Lazar meets Harry Davis and Gus Foran boxes. Tommy Plowright.

I see that Eric Hall. of Milton, about whom I wrote a few weeks ago, brought off yet another of his spectacular wins at the Cambridge Corn Exchange the other night. He knocked out John Newman within a minute of the start of the bout. Eric looks the sort of lad who may hit the headlines some day. His Racing Days Are Over

MODEL DASHER, world greyhound record holder over 700 yards and Middand champion, has had his racing career ended. When running in the Perry Barr Cup, and looking a winner all over, he broke a hock bone. He has been retired to the stud, and his owner has lost a champion which he recently said he would not part with for £10,000.

The Dasher, who held four track records, put up world figures at Wembley last September when doing the 700 yards in 39.73. His other three yards in 37.3. His other three track records are 40.18 over 700 yards, 43,65 over 750 yards at Coventry on April 14, and 28.24 over 500 yards at Perry Burr on April 1 of last year,

the Army, Navy, and Air Force, but, believe me, there is just as much first-class material to be found among non-uniformed players.

By this I obviously refer to the mineworkers of South Wales, and it is in this direction that clubs like Leeds, Huddersfield, Wigan, Oldham and Bradford Northern are busy. Already most Rugby League secretaries have fixed uppaid scouts and are keeping tabs on weekly reports on players they would like to persuade to take the professional ticket.

We had some inkling of this revival of activity in the week when Leeds rather startled you fans by "getting rid" at one fell: swoop of three veterans Eaton (full-back). Gee (half-back) and Tattersfield (loose-forward).

When I say "getting rid" I do not intend to speak disparagingly of the men concerned, but what I say is the plain, unvariabled truth. Leeds intend building up a world-beating team, but it must be young talent, capable of holding together for some years to come. Eaton, Gee and Tattersfield plant, Leeds intend building together for some years to come. Eaton, Gee and Tattersfield year all gone to the same club (Batley) and will be a godsend to that by no means clite stide.

So this atraw in the wind only serves to confirm my opening remerk that

France Wants Rugby Internationals

France, who have not met the Home
Countries in Rugby internationals since
the break in March 1931, are endeavouring to bring about a renewal of fixtures
as soon as possible.

But for the outbreak of war in 1939
France would again have been included
in the International Championship
tournament for that season.

Now Mr. Cyril Rutherførd, secretary
of the French Union, has written to the
Unions of England, Scotland, Ireland
and Wales suggesting that the dates
corresponding to those arranged for
11 1939-40 should be adhered to next season.
The 1939-40 dates were v. Scotland,
in Paris, on January 1; v. Ireland, at
Belfast, January 27; v. England, at
Twickenham, February 24; v. Wales, in
Paris, March 25.

HAVE seen this myself. I have just returned from a visit to the slave labour camp at Belsen newly-liberated by the British. My clothes are still reeking with the odour of dead bodies and I feel it will never leave my nostrils.

A few days ago a British colonel showed me pictures of the atrocities in Belsen. Frankly I thought they were faked. He said: "Will you go and see for yourself?"

So I went to Belsen to see for myself. I am the first woman war correspondent to visit this atrocity camp, as well as the first English-speaking woman. What I have seen defeats descriptive writing. Therefore, I shall not attempt a word picture, but content myself with putting the plain facts before the readers of "The People" and let them judge for
