Dear Tim,

Herewith the first of the three German Navy lots. I have numbered them on back with description as follows:

1. Commander??? zu See d ? Kinsger???? Stavanger, Norway, 1940. Probably the compiler of the Photograph Album containing all 3 lots of photos/p/c's.
2. Ditto, standing in front of Amundsen statue, Norway.
3. Ditto, on ship, without cap.
4. Lieut. zu See Schonar, on ship, 1940. Norway.
5. Naval Officer with ceremonial sword/dagger on Norwegian mountain road.
6. German Army landing craft, assault of Norway.
7. Damaged beached ship.
8. German soldier examining damaged beached ship.
9. Two damaged ships, listing.
10. Troop ship from naval vessel, fjord.
11. Ships guns firing. 11.3cm, ??fjord.. writing on back.
12. Another, similar. 28cm stern guns firing. writing on back. Tudorhees????
13. Another, guns firing, writing on back.

All the above appear to be the 1940 Norwegian Campaign..some of the following may also be but cannot be certain.

14. Naval Officer on deck, relax uniform, binoculars around neck, with seaman also on watch to rear.
15. Ship in far distance making smoke or on fire.
16. Laying mines from ship, roughish seas.
17. Ship making smoke or on fire, larger & closer photo than 15.
18. Warship, view along side & astern to following ship. "Kreigsmarsch".
19. Two photos depicting Officers celebrating at Dining Table, navy band playing music in background. One dated 13.2.41 and names officers in German script
20. which could be deciphered. High navy brass from appearances at top of table.
21. Seated Group of distinguished German Naval Officers with others standing behind, full uniform. Centre appears to be main guest at dinner in prev. 2 photos. Named on reverse in script again..Officer corps. No. 2.....
22. Two officers walking across field, 15th October, 1944, details in script on reverse. Film stock deteriorating that late in the war!
23. Group of Navy seamen, officers, & 2 Wehrmacht men in front of Memorial "General Valentin...Cavalerie". Back. Flanders ? 1942, & Keumand?????

24. Photo from rear of warship with sailors watching a salvo being fired from the "Hessen", dated 1934.
25. Young sailor leaning on railing, looking left. Shore leave.
26. Young sailor in front of house, named on backHubert von ..hlen, Konigs.... 1942.
27. Four photos, later prints from wartime negatives, showing Ship's band
28. playing at stern at dock as tug nudges out; officers talking on deck;
29. two seamen in tropical whites on warship; & engineer? on deck, in
30. rough clothes.
31. Surface-damaged photo of naval officer seated, named on back, Spelinger???? 21.3.41.
32. Seaman in uniform with wife, wedding photo. Campaign badge could be identified. Postcard back.
33. Larger photo, mines along outside deck of ship alongside dock.
On back : Hans Peter Kalthoff, Hombergsegge 20, 4320 Hattingen 16.

I am sure that these, & photos to come, would have an interest in Germany, Navy Association, collectors, whatever.

The differing sizes of the photos make in difficult to keep them in order, which is why I numbered in small circle on back.

All the three lots came in an album with Eagle & Swastika & "Zur Erinnerung an meine Dienstzeit." This album is too heavy to airmail except at great cost. Photos appeared in roughly the correct order, but not quite, & possibly put together finally after the war by widow? family?

Please acknowledge receipt of these photos, & I will hopefully organise & send the other two Lots over the next week, so that the 3 Lots can appear together in the May sale...they could be much in demand.
