

LONDON TAXI-DRIVERS H.G. IN ACTION.

MB/RS.

Taxi-cabs figure in the front line of Britain's defence should invasion occur; several hundreds of London's taxidrivers, all members of one Home Guard unit, with their own officers and N.C.O.'s are training to go into action should the need arise. They are equipped with tommy guns, stens and rifles and when on Home Guard duty, their cabs are camouflaged by nets and shrubbery.
